Press Release

I-10/I-25 Systems Interchange Project
Las Cruces, NM

LAS CRUCES – Update: The New Mexico Department of Transportation (NMDOT) have made some changes to their traffic control along I-10. The work with A.S. Horner, Inc. continues as scheduled with heavy equipment and field personal working near moving traffic. The NMDOT encourages the public to proceed with extreme caution, and to follow traffic alerts as they are posted.

The traffic updates for this project will be as follows.

Contractor: A.S. Horner, Inc.

- Cholla Road Detour: Cholla Road remains CLOSED under I-25. Motorists are advised to use Triviz - Wells - Geothermal Detour to Las Alturas. This detour will be in place until 07/22/12 for widening of I-25 Cholla Bridges.
- I-25 Southbound (SB) & Northbound (NB) Detours: The two-way NB & SB traffic is in the SB lanes using detour crossovers for construction of I-25 NB Bridge over Cholla Road. The completed SB Bridge for the new South to West Ramp is open to traffic. The NB lanes have been reduced to one lane approaching Cholla Bridges for construction of new flyover bridge support.
- I-10 Eastbound (EB) & Westbound (WB) Detours: The lanes in both directions have been reduced to one lane intermittently for work in the median and on the shoulders. The two-way traffic is in the EB lanes at Fillmore for drainage structure construction in the WB lanes.
- All I-10 traffic is placed on the WB lanes. Motorists traveling **EB** on I-10 to access I-25 **NB** will **NEED** to use US-70/Picacho, Avenida de Mesilla or N. Main/University exit as an alternate route. The construction of the new flyover will be under construction and this portion will be CLOSED until October 2012.
- Stern Drive: The traffic is on the new detour closer to the houses for construction of retaining walls for the flyover bridge over I-10 and the new East to North Ramp. This traffic pattern

will be in place for the next few months, until end of August. Both streets in to the subdivision, Morning Dove and Spotted Dove are open to traffic. Stern is shifted closer to the Dove Crossing Development. This is to allow construction of the new flyover ramp.

- Las Alturas traffic will be switched to the new alignment (East of current alignment) for the construction of the new East to North Flyover Ramp.

Motorists will continue to see heavy equipment movement along Cholla, Las Alturas and Stern, with delays in traffic on I-10 and I-25.

This project will be progressing in stages where updates will be posted the NMDOT home page <http://www.dot.state.nm.us/InterchangeI10-I25.html> and on their road advisory site at www.NMroads.com.

For questions regarding this project call Leandro Montoya, III P.E., NMDOT District One Project Manager at (575) 525-7388 or Bridget Spedalieri at (575) 525-7340, NMDOT District One Public Relations Officer.
