

## **Fastrax Volume I - A Safe Alternative to Street Racing, Music to Drive By**

*A compilation CD of House, Trance, and Rave music mixed with authentic race-car sound effects sampled from Nascar, Formula 1, Indy 500, GrandPrix, and Kart motorsports.*

VANCOUVER, CANADA ([PRWEB](#)) May 11, 2004 --Before you group all young drivers as irresponsible street racers check out what FastraxCD Car Club is doing to combat illegal street racing. FastraxCD Car Club has released their exclusive music compilation CD, Fastrax Volume I; a safe alternative to street racing.

This music to drive by can be purchased over the web at [www.fastraxcd.com](http://www.fastraxcd.com)

Fastrax Volume I is a safe alternative to street racing, says Adam Kidd, Fastrax Media President, and himself a victim of a motor vehicle accident.

Car crashes account for the highest cause of death for drivers (ages 13-21) in BC, according to a recent ICBC report.

I know that young drivers enjoy the sound of their cars accelerating so I captured those sounds from NASCAR, Formula 1, Indy, GrandPrix & Kart Motorsports, and incorporated them in Fastrax Volume I. Now, young drivers can emulate professional race-car drivers playing the controlled sounds of our music CD, without street racing, says Adam.

With an increase in motor vehicle accidents due to illegal street racing, Fastrax Volume I can offer car enthusiasts a safer way to drive by **A Safe Alternative to Street Racing -- Music to Drive By!**
