

Sell Mini-Harleys & Mini-Ninga Pocket Bikes for 400% Profit!

Buy Pocket Bikes (Mini-Harleys, Mini-Ninjas, Gas & Electric Scooters) at ROCK BOTTOM wholesale prices and sell them for a HUGE profit.

([PRWEB](#)) June 28, 2004 -- I am looking for businesses who are in need of large quantities of pocket bikes. My company also pays referral commissions (average \$400.00 - \$1,500.00) to private parties on leads that turn into actual sales.

We at LuceEnds would like to offer our services as a 'Broker' or liaison. By using our services you can order from our line (<http://www.luceends.com/page2.html>) or create your own 'specialty bike'. At your request, we can give you specifications on any model. Prices will be determined by quantity, style, revisions and shipping destination.

We are online with the manufacturers and can customize all of our bikes to your needs and specifications.

All bikes are shipped in 20' to 40' containers to your nearest port of call. Models can be mixed in container loads. If you have an interest in any of the bikes, let us know the model number and any special requirements you have and we will get back to you promptly with availability, price, minimum order and quantities involved in container loads.

If, at this time, you do not need our service but know of a merchant who does - PLEASE forward our information to them. We award commissions for referred sales.

Thank you for this opportunity to be of service to you.
