

Bluemotorcycle Consulting Launches Business Web Hosting Site.

Technology consulting firm Bluemotorcycle Consulting (bluemotorcycle.com) announced on Monday that it has launched its flagship web hosting site www.bluemotorcycle.net. The site is specifically designed to support small to medium sized businesses in need of hosting, domain registration, e-commerce services, business and technology business consulting.

San Mateo, CA ([PRWEB](#)) January 25, 2005 -- Technology consulting firm Bluemotorcycle Consulting (bluemotorcycle.com) announced on Monday that it has launched its flagship web hosting site www.bluemotorcycle.net. The site is specifically designed to support small to medium sized businesses in need of hosting, domain registration, e-commerce services, business and technology business consulting.

Bluemotorcycle Consulting recognizes that a corporate website and Internet identity is a vital lifeline in today's small and medium-sized business community. Businesses simply can't succeed today without the help of a partner committed to providing high-performance, high-availability web hosting. As such, Bluemotorcycle Consulting's services create real value and ROI for new and established small to medium-sized businesses and provide a solid foundation for future growth."

Bluemotorcycle Consulting offers premium web-hosting services at very affordable rates to satisfy a wide variety of business needs. A combination of flexibility, reliability, customer service, and affordability makes our hosting plans an ideal fit for small to medium-sized business needs.
