Solomon Software Teams Up With Microsoft in Birmingham

Solomon Software UK will exhibit with Microsoft's Project Team in the UK to promote Enterprise Project Management at the Motorcycle Museum in Birmingham.

([PRWEB](#)) March 16, 2005 -- Solomon Software UK announced today that they will be teaming up with Microsoft Project Team in the UK to promote the Enterprise Project Management (EPM) software at the Project Challenge Spring Show at the National Motorcycle Museum in Birmingham on April 13th & 14th.

Enterprise Project Management (EPM) works in conjunction with Solomon Project Management Accounting software to allow organisations to more effectively manage and coordinate their people, projects and processes. The integrated solution will seek to promote broad participation in individual organisations for greater accuracy, accountability and acceptance.

Solomon Software UKÂ□s Chief Executive Officer, Brian Myrie, stated Â□We are extremely pleased to announce our collaboration and participation with Microsoft to promote this top of the line product which will add integrated project functionality and efficiency for project based businesses and particularly for users of our Solomon Project Accounting Software.Â□ He further pointed out that Â□Given that we are a project accounting based company ourselves, we understand the great benefits MicrosoftÂ□s Enterprise Project Management can add to any organisation. We look forward to providing our customers with the latest and greatest that Microsoft has to offer.Â□

About Solomon Software UK
Solomon Software UK was established in 1996 to provide billing, project and consultancy solutions to medium sized companies in the UK and Ireland. It has since expanded to provide solutions for top tier organisations not only in Britain but Europe, the Middle East and around the world. Solomon Software UK is the distributor, through its network of dedicated resellers, of the Microsoft Business Solutions Solomon Project Accounting Software in the United Kingdom and beyond.
