

## Horsepower and Rucker Performance Meet at the AHDRA Drag Racing Series

### *Rucker Performance Sponsors AHDRA Super Gas Class*

Fort Worth, TX ([PRWEB](#)) March 31, 2005 -- Rucker Performance, a leading custom manufacturer of high performance, highly styled, custom American Muscle Bikes, signed a class sponsorship for the AHDRA 2005 Screaming Eagle Series Championship in the Super Gas Class.

“Rucker Performance is proud to be the new class sponsor the AHDRA Super Gas Class,” said Bill Rucker, President of Rucker Performance. “We selected the Super Gas Class because it is the fastest non-professional class with the greatest amount of engine innovation.”

“The Super Gas class provides for unlimited engine modifications. This includes fuel injection, supercharger, E.F.I., turbo-charger, nitrous oxide and double engines.”

Rucker Performance’s American Muscle Bikes, the Assassin and the Predator are built in the spirit of the raw adrenaline of drag racing. Our custom motorcycles come with monster torque, fit and finish of one-off custom bikes, and exceptional handling.

“The reason that we are building a relationship with AHDRA is because our firm is about performance,” stated Rucker. “We live and breath high-performance American Muscle Bikes. In the not too distant future we will be producing the ultimate horsepower motorcycle and we see this class as a laboratory for testing new technology, enthusiast interests, and usable high-performance horsepower.”

#### About AHDRA

The AHDRA 2005 Screaming Eagle Series Championship is commencing its 28th season comprised of fourteen rounds of snarling American V-twin action stretching from Florida to California with the final round finishing up in Las Vegas, NV.

#### About Rucker Performance

Rucker Performance started production in 2004 and has quickly become a leading designer and manufacturer of custom American Muscle and Chopper motorcycles. Rucker Performance is known for ground-shaking performance with fit and finish that is comparable to one-off custom motorcycles.

Additional design queues include soft-style suspension, high-performance V-twin 124 cubic inch polished engines, clean, sharp lines, 6-speed transmissions, stretch tanks and fat tires. Designing and manufacturing is performed at the company’s headquarters in Fort Worth, Texas.
