

SAE International Presents Outstanding Event Line-Ups for Light Duty Emissions Symposium and Government/Industry Meeting

SAE International is headed to Washington, D.C. from Jan. 23-27 for two leading mobility engineering events, both of which aim to ensure that attendees are aware of and ready to meet regulatory pressures and market demands

WARRENDALE, Pa. ([PRWEB](#)) December 07, 2016 -- SAE International is headed to Washington, D.C. from Jan. 23-27 for two leading mobility engineering events, both of which aim to ensure that attendees are aware of and ready to meet regulatory pressures and market demands. The events are collocated with the Washington Auto Show which begins with the Thursday night preview on Jan. 26.

- The SAE 2017 Light Duty Emissions Control Symposium will be held Jan. 23-24 and will provide attendees with the opportunity to experience presentations and share in discussions regarding emissions control of both diesel and gasoline light duty vehicles.

Attendees will discuss the CARB and EC emission regulations, CAFE standards and the latest EPA Tier 3 emissions and fuel regulations. Attendees can also communicate directly with the EPA to understand the opportunities and challenges with the latest standards.

- The SAE 2017 Government/Industry Meeting, will take place Jan. 25-27; it will offer a valuable attendee experience, comprising a three-day conference program exploring the future of the automotive industry based on incoming legislation and regulations and provides industry professionals the opportunity to communication directly with regulatory groups on these issues.

Registration for both SAE International events includes complimentary access to the Washington Auto Show from Jan. 27-Feb. 5, as well as the exclusive Thursday night preview. Designated one of the nation's top five auto shows, attendees of the Washington Auto Show can explore the cutting-edge exhibits, latest model cars and displays of historic vehicles.

Both SAE International events offer a \$100 discount to those who register prior to January 6 and early registrations are encouraged.

SAE International is a global association committed to being the ultimate knowledge source for the engineering profession. By uniting more than 127,000 engineers and technical experts, we drive knowledge and expertise

across a broad spectrum of industries. We act on two priorities: encouraging a lifetime of learning for mobility engineering professionals and setting the standards for industry engineering. We strive for a better world through the work of our philanthropic SAE Foundation, including programs like A World in Motion® and the Collegiate Design Series™.
