

## **SAE Supermileage Returning to Marshall Michigan on June 8-9**

*SAE International's Collegiate Design Competition, Supermileage, will return to the Eaton Proving Grounds in Marshall, Mich., on June 8-9.*

WARRENDALE, Pa. ([PRWEB](#)) May 22, 2017 -- SAE International's Collegiate Design Series Competition, [Supermileage](#), will return to the Eaton Proving Grounds in Marshall, Mich., on June 8-9.

SAE Supermileage is an engineering design competition for undergraduate and graduate students. The goal of SAE Supermileage is to develop and construct a single-person, fuel-efficient vehicle that complies with the competition rules. Vehicles run a specified course at the proving grounds to obtain the highest combined miles-per-gallon rating. Students also participate in a design segment consisting of a written report and verbal presentation.

The competition also gives students the opportunity to set a world fuel economy record and increase public awareness of fuel economy.

In 2016, the team from Universite Laval in Quebec City, Canada, captured its third consecutive Supermileage title with an astonishing 3,788 miles per gallon.

Approximately 30 teams are expected to compete this year.

For more information on SAE Supermileage, visit <http://students.sae.org/cds/supermileage/event/>. To request media credentials, email [pr\(at\)sae.org](mailto:pr(at)sae.org) or call 1-724-772-8522.

SAE International is a global association committed to being the ultimate knowledge source for the engineering profession. By uniting over 127,000 engineers and technical experts, we drive knowledge and expertise across a broad spectrum of industries. We act on two priorities: encouraging a lifetime of learning for mobility engineering professionals and setting the standards for industry engineering. We strive for a better world through the work of our philanthropic SAE Foundation, including programs like A World in Motion® and the Collegiate Design Series™.
