

## **SAE International Transmission and Driveline Symposium Keynote Speaker & Executive Panel Announced**

*SAE International announces the keynote speaker and executive panel for the Transmission and Driveline Symposium, taking place November 14-15 in Dearborn, Michigan.*

WARRENDALE, Pa. ([PRWEB](#)) August 01, 2017 -- SAE International announces the keynote speaker and executive panel for the [Transmission and Driveline Symposium](#), taking place November 14-15 in Dearborn, Michigan. The keynote speaker and panelists are the highlights of the Symposium's technical program which will provide executives, engineers, researchers, and developers with critical insights on the design, manufacture, and operation of transmission and driveline technologies in the passenger car and heavy-duty markets.

On Tuesday, Nov. 14, Prof. Dr. Peter Johannes Tenberge who serves as the Chair of Industrial and Automotive Drivetrains at Ruhr-University Bochum in Germany will give the keynote address. Tenberge will speak on electrification, with an emphasis and specific detailed example on FWD parallel hybrid constructions and in specific global regions.

An Executive Panel will also be held on Tuesday, Nov. 14, on the Impact of Growing Acceptance of Shared-Mobility on Vehicle Volumes - Is the end of traditional transmissions and drivelines near? Panelists include Patrick Lindemann of Schaeffler-Luk, Andreas Schamel of Ford Motors, Larry Nitz of General Motors, and Shea Burns of Scenaria AVL.

The Transmission and Driveline Symposium will host a number of additional technical sessions offering insightful and imperative information on autonomous driving's impact on transmission and driveline design, electrification, controls and simulation, high performance lightweighting applications, launch devices and more.

SAE International is a global association committed to being the ultimate knowledge source for the engineering profession. By uniting more than 127,000 engineers and technical experts, we drive knowledge and expertise across a broad spectrum of industries. We act on two priorities: encouraging a lifetime of learning for mobility engineering professionals and setting the standards for industry engineering. We strive for a better world through the work of our philanthropic SAE Foundation, including programs like A World in Motion® and the Collegiate Design Series™.
