

All Traffic Solutions (ATS) Donates Radar Speed Sign to Kinsman Township Police Department

All Traffic Solutions awarded a Shield 12 radar speed sign to the Kinsman Township Police Department in Trumbull County, Ohio through the company's ATS Gives Back initiative.

CHANTILLY, Va. ([PRWEB](#)) February 27, 2023 -- All Traffic Solutions awarded a Shield 12 radar speed signs to the Kinsman Township Police Department in Ohio through the company's ATS Gives Back initiative.

Over the years, All Traffic Solutions found that police departments in smaller communities have a need for All Traffic Solutions signs but lack the necessary funds and do not qualify for grants. The ATS Gives Back goal is to bridge this gap by donating radar speed signs to communities in need each month. ATS Gives Back recipients also receive a subscription to TrafficCloud®, All Traffic Solutions' patented traffic device, and data management system.

Kinsman Township Police Department has eight sworn officers to serve and protect over 1,700 citizens across 26.8 square miles of their small township in Ohio. Most of their traffic flows through Main Street, where there is a combination of passenger and commercial vehicles, Amish vehicles, and bicycles. The Shield 12 radar speed sign serves as a deterrent to speeding violators on Main Street, and helps the Kinsman Township Police Department prioritize enforcement by collecting and analyzing traffic data.

“[The Shield 12] has been very useful in some of our more traveled areas along the lines of deterrence. With the data being gathered, I can see a significant change in speed patterns in the Township. I really can't say enough good things about the sign and about All Traffic Solutions.” said Kinsman Township Police Department Chief Shawn Rentz.

You can nominate a department and learn more about the ATS Gives Back criteria by visiting the All Traffic Solutions website.

About All Traffic Solutions

All Traffic Solutions (ATS) is a leader in portable, durable products and web-based solutions for traffic management and safety. We help law enforcement agencies and municipalities use data and devices such as web-enabled radar speed displays and variable message signs to calm traffic, resolve complaints, and improve safety outcomes while maximizing resources and budget.
