

All Traffic Solutions to Host Live Webinar with Scott Belcher, Former President and CEO of ITS America

Event explores how intelligent transportation departments can benefit from cloud-based traffic management and IoT

Herndon, VA ([PRWEB](#)) September 22, 2017 -- All Traffic Solutions, the innovation leader in cloud-based traffic management solutions for law enforcement, intelligent transportation and communities announced today that they will host a free live webinar event on Tuesday, September 26, 2017 at 2 pm ET, as part of the ATS Insights in ITS webinar series. The webinar, titled How Intelligent Transportation Departments Can Benefit from Cloud-based Traffic Management & IoT, which features a live interview with Scott Belcher, former president and CEO of ITS America and former CEO, Telecommunications Industry Association, will be of particular interest to professionals working with departments of transportation, public works agencies and traffic engineers who want to learn about the best strategies and technology innovations for ITS and smart cities.

As technology continues to change at breakneck speed, even the most forward-looking transportation departments are uncertain about the best way to approach the adoption of Intelligent Transportation Systems (ITS). Mr. Belcher will share insights based on his extensive experience with ITS America, the US DOT ITS Program Advisory Committee (ITSPAC), the American Association of State and Highway and Transportation Officials (AASHTO) and others.

“DOTs want to know the best strategies for managing their transportation ecosystems. now and for the future,” said Jim Weaver, All Traffic Solutions President and CEO. “We’re so pleased that Scott Belcher will join us to share his unique perspectives on technologies, trends and innovations in ITS, and where transportation technology will take us.”
