

All Traffic Solutions to Showcase Their Connected Intelligent Transportation Solutions at ITS World Congress 2017

Visitors to the ATS booth will learn how they can benefit from the latest sensor-driven technologies, IoT and a data-centric approach to smart transportation and traffic management systems

Herndon, VA ([PRWEB](#)) September 29, 2017 -- All Traffic Solutions, the innovation leader in cloud-based traffic management solutions will showcase their groundbreaking connect Intelligent Transportation Solutions at ITS World Congress 2017, which will take place October 29 to November 2, 2017 at the Palais des congrès de Montréal in Montreal, Quebec .

ITS World Congress 2017 will attract thousands of global leaders in intelligent and transformative transportation to showcase and evaluate the latest innovative concepts, active prototypes, and live systems, and who want to learn about how this rapidly changing and ever-expanding industry is addressing the very real challenges facing our mobile, connected societies today and in the future.

All Traffic Solutions invites attending transportation professionals to Booth 2118 to learn more about how the company's intelligent transportation solutions are making it possible for municipalities of all sizes to become smart cities now and build their traffic ecosystems for the future, today. ATS solutions experts will be on hand to discuss how organizations can benefit from the latest sensor-driven technologies, IoT and the ATS data-centric approach to smart transportation and traffic management systems.
