

## **All Traffic Solutions Spotlights SmartZone for Schools, the Only Radar Speed Display with Audible Alerts, at 2017 International Chiefs of Police Conference & Exposition**

*SmartZone for Schools is fully programmable from any Internet-ready device*

Herndon, VA ([PRWEB](#)) September 29, 2017 -- All Traffic Solutions, the innovation leader in cloud-based traffic management solutions for law enforcement, intelligent transportation and smart cities announces their participation at the annual IACP Conference being held at the Pennsylvania Convention Center from October 21–24, 2017. This annual event attracts an audience of over 14,000 officers and safety professionals looking for new, innovative technologies to help their departments operate more efficiently and effectively.

At the expo, All Traffic Solutions will spotlight their cloud-based traffic safety solutions, including the SmartZone for Schools radar speed display. SmartZone for Schools gives officers a way to effectively address school zone speeding issues by sounding an audible alert and flashing a beacon when a vehicle traveling over a pre-programmed speed threshold limit passes the sign. Like all ATS devices, both are TraffiCloud™-ready and fully programmable from any Internet-ready device. Users can remotely and independently set schedules for Audible Alerts, beacons, and speed limits for school days and hours, as well as gather meaningful data to identify areas that require additional safety measures.

All Traffic Solutions invites attendees to Booth #2657 to learn how TraffiCloud can help with traffic calming, speed traffic safety and enforcement, speed dependent messaging and real-time data collection and reporting. ATS' best-in-class traffic safety equipment, including [radar speed displays](#), [variable message displays](#), [hand-held lidar](#), and sensor-free vehicle [count and classification devices](#) streamline work flows, and combined with TraffiCloud, provide a new level of awareness.

A major participant at the event, visible beyond the exhibit hall on the Silver level, All Traffic Solutions is sponsoring attendee shuttle transportation between the hotels and convention center.
