Re: **Dana Pinion Gear**

Dear Mr. Person:

On January 3, 2008, NHTSA received notice of a safety defect pertaining to pinion gear breakages from Dana Corporation. In this letter, there were two Volvo brand vehicles identified as possibly being affected by the recall. With Dana Corporation's help, we were able to contain these vehicles and address them prior to delivery to our dealer; therefore, Volvo Trucks North America will not have to initiate a safety recall.

If you need any further information regarding this matter, please don't hesitate to contact me.

Yours truly,

Tim L. LaFon
Manager, Regulatory Affairs
