Mr. Daniel C. Smith
Associate Administrator for Enforcement
National Highway Traffic Safety Administration,
Attention: Recall Management Division (NVS-215),
1200 New Jersey Avenue, SE.,
Washington, DC 20590.

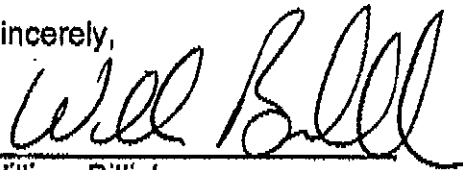

Dear Mr. Smith,

RE: 08E-019—Intercontinental Auto Parts, Inc. Quarterly Campaign Reports

Pursuant to 49 CFR 573.7, Intercontinental Auto Parts, Inc. filed its First Quarterly Campaign Report relating to Campaign No: 08E-019 and covering the First Quarter of 2008. That report indicated that although there were only 1,937 parts subject to the recall, 3,602 parts had been returned.

Since that time there have been no additional activities that would change the information provided to NHTSA in our original report. However, it has come to our attention that the regulations appear to require filing additional reports providing NHTSA with that information. Intercontinental is therefore attaching reports for the second, third and fourth quarters of 2008, which state that there have been no further returns from the field or primary customers during the periods covered by the report. The numbers reported in these reports are unchanged from the first quarterly report.

Sincerely,

William Billich
Customer and Technical Service Manager

1. Stores in the field have not found it efficient to sort filters by date code, and so have returned more filters than the population of filters subject to the recall. Intercontinental is scrapping these filters without performing a date code sort.
