

## **An Australian First.**

([PRWEB](#)) January 28, 2000 -- A new site to the Australian web scene named Parking Fines Made Easy is the first and only one of its type in Oz.

Parking Fines Made Easy is a site which is prepared to inform those not in the "know" about how parking enforcement processes are used by Local Government in Australia for the raising of revenue.

Its a "mine" of information to the visitor which has caused rumbles in the enforcement industry.

Visitors are not only informed of their rights regarding parking fines but have the opportunity to seek advice from highly qualified staff at Parking Fines Made Easy.

Its already number 1 on Yahoo and this site can only get bigger and better.
