Press Release

New District Engineer for NMDOT Southeastern New Mexico – District 2

Roswell - Roswell native Timothy Parker will serve as the new District 2 Engineer. Tim is currently the District Three Engineer serving the Albuquerque Metro area. He replaces Ralph Meeks who recently retired after serving more than two years as District Engineer.

Parker is a licensed as a professional engineer in Texas and New Mexico, a licensed GB-98 General Contractor, and holds a Bachelor's and Master's Degree in Civil Engineering from Texas Tech. He has worked for NMDOT for four years.

"Timothy Parker is the right person for the job," said Anthony Lujan, NMDOT's Deputy Secretary. "Parker understands the challenges facing Southeastern New Mexico, and he brings years of hard work and experience to the position."

NMDOT District Two plans, designs, builds, operates and maintains the state transportation system in the following counties: Chaves, Curry, Eddy, De Baca, Lea, Lincoln, Otero, Roosevelt, and parts of Guadalupe and Torrance.

"This is an exciting, demanding time to work in transportation," said Parker. "It's a tremendous honor to lead the dedicated professionals working in Southeastern New Mexico - District Two." While Parker will miss his co-workers in Albuquerque, "I'm excited to be in my hometown by my family, serve SENM, and ready to get to work."
