*Press Release*

## I-10 Vado Interchange *Ramp Closure*

**Las Cruces:** The New Mexico Department of Transportation District One office with El Terrero Construction will begin the construction of the roundabouts at the Vado interchange. This will affect the I-10/Vado on and off ramps (exit 155).

The contractor has closed the Vado (exit 155) westbound on and off ramps, and will close the eastbound on and off ramps by 9 am Wednesday January 14. Minor work continues on I-10 at the Mesquite interchange where motorists have full access to the on and off ramps at Mesquite (exit 151). The public will be able to access the Mesquite and Anthony/NM 404 exits.

The construction of the roundabouts should be completed by the end of March of 2015, with detours posted at the Anthony and Mesquite exit. Motorists will have access through the frontage roads. Motorists will be directed to follow traffic notifications as they are posted throughout the work zone.
