

## **Vehicle Protection Accessory Invented by InventHelp Client (CBA-2656)**

*InventHelp, founded in 1984 in Pittsburgh, is submitting the AUTO BODY GUARD to applicable companies for their review.*

PITTSBURGH, PA ([PRWEB](#)) December 23, 2015 -- There are approximately 232 million passenger vehicles on the roads, and all of them are susceptible to costly damage due to hail and other inclement weather while parked outdoors.

With the AUTO BODY GUARD, in less than five minutes, vehicle owners are able to provide complete auto-body protection. The cover protects a vehicle from damages caused by hailstones, debris and bad weather. It prevents paint and body from being scratched, chipped or dented, which avoids the need for costly repairs. This provides added peace of mind when leaving the vehicle parked outdoors.

The inventor's personal experience led to the development of his idea. "I am an avid classic car collector, and I always worry about leaving my vehicles out in inclement weather because it has caused costly damage to my cars in the past," said the man from Myrtle Beach, S.C.

The original design was submitted to the Columbia office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 14-CBA-2656, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
