

## **VIS Exhibits Transportation Equipment Products for the First Time at the 2016 WWETT Show**

*[Vehicle Inspection Systems](#) attends the Waste and Water Equipment, Treatment and Transport Show (WWETT) next month to showcase its waste industry safety products.*

Orlando, Florida ([PRWEB](#)) January 25, 2016 -- Vehicle Inspection Systems is excited to announce our first time as exhibitors for the Water and Wastewater Equipment, Treatment and Transport Show (WWETT) next month in Indianapolis, IN. Vice President Mark Keegans and the VIS sales and service team will be at the 2016 WWETT Show from February 17-20. VIS will be located at booth #1061 to showcase the VIS-Polish, the VIS-Shine, the Squirrel: Wheel Safety Device, and the HD Powersmoke.

Throughout the show, the VIS sales and service team will be conducting demos of the VIS-Polish equipment, to show how it refurbishes and polishes aluminum truck wheels to a mirror-like finish. VIS will also present the VIS-Shine, a portable on truck wheel polisher, the Squirrel: Wheel Safety Device and the HD Powersmoke.

Keegans says, "It is always great to exhibit at new shows. It gives us the opportunity to meet new people in the industry, and show how our products can simplify maintenance and safety related issues; while at the same time, provides an opportunity for customers to consider our equipment to improve their fleet."

The annual WWETT Show has had 36 years of successful shows and will have more than 600 exhibiting companies present this year. VIS will be located at booth #1061 showcasing transportation equipment throughout the weekend of the show.
