

CML Emergency Services Signs An OEM Agreement With AVeL-TECH

([PRWEB](#)) July 16, 2000 -- AVeL-TECH announced that an OEM distribution agreement was signed with CML Emergency Services. Under the terms of the agreement, CML Emergency Services will license AVeL-TECH's software products suite to incorporate it into its SeNTinel line of emergency management products.

"We are proud to team up with CML, a world leader in the 9-1-1 and Emergency Operations Centers markets. Our combined products are offering the Public Safety markets the first truly integrated and complete suite of products and services, including everything in between 911 call taking and mobile applications" said Michel Jarry, CEO of AVeL-TECH.

"This agreement is in keeping with CML's commitment to be a full-product service and solution provider for the public safety sector," said Paul Butler, CML's CEO. "We're very pleased to be working with quality vendors such as AVeL-TECH to meet this objective."

AVeL-TECH Background Information

Based in Canada, AVeL-TECH designs and commercializes a complete suite of products for mission critical organizations, including computer aided dispatch (AVeL-CAD), automatic vehicle location (AVeL-NET), message switch (RadioGate) and vehicular applications (MobiCAD).

AVeL-TECH's products have been designed to conform to the highest standards set forth by public safety organizations requiring uncompromised robustness to handle uninterrupted life-saving operations.

The AVeL-NET product line is modular and can be articulated around most operational requirements. AVeL-NET is available in English, Spanish, Portuguese and French and is currently used by several Police, Ambulance, Fire departments and Governmental Agencies in North America, Latin America and Europe. AVeL-NET, RadioGATE and MobiCAD are trademarks of AVeL-TECH Incorporated.

CML Emergency Services Background Information

CML Emergency Services, Inc. is a world leader in call management solutions for the public safety sector. Used by emergency response personnel in public safety answering points (PSAPs) worldwide, CML products and services are trusted and recognized for their innovative technology, reliability and user friendliness. Setting industry standards, CML's SeNTinel products include call management software, statistical reporting, system maintenance, radio dispatch consoles, 9-1-1 switching, computer-aided dispatch, mapping, and other components of PSAP operations. CML works closely with its customers to help them achieve their goal of providing 9-1-1 services that are efficient, fast and reliable by providing end-to-end support services from design and installation, through integration, maintenance, training, and 24/7 help.
