

TRUCKSHARK LAUNCHES WEBSITE DESIGN SERVICE

TruckShark announced that it has started a services unit to make websites for trucking industry companies.

PALO ALTO, CALIF. ([PRWEB](#)) October 17, 2001 - TruckShark®, the online trucking publication, announced today that it has started a services unit to make websites for trucking industry companies. Information on the new service is available on the Internet at <http://www.truckshark.com/get.htm>.

TruckShark's website design service helps trucking insurance agents, commercial truck financing firms, trucking companies, and other firms establish an Internet presence quickly and inexpensively. As an organization that understands both trucking and websites, TruckShark is uniquely well qualified to serve the trucking industry's online design needs.

TruckShark's new service includes website name procurement, site creation, hosting, and search engine registration.

About TruckShark

TruckShark®, the online trucking publication, provides truckers, fleet managers, and logistics executives with useful, no-nonsense industry information and opportunities. TruckShark is available free of charge on the Internet at <http://www.truckshark.com>. TruckShark is owned by Eureka Media, Inc., a privately held corporation based in Palo Alto, California.
