

Inventor and InventHelp Client Develops Organizer for a Semi-Truck Sleeper (RIM-184)

Pittsburgh-based InventHelp is submitting the TRUCK SHELF to applicable companies in the hopes of a good faith review.

PITTSBURGH, PA ([PRWEB](#)) December 19, 2015 -- "I am a truck driver, and the cabin can be cramped and small, with no good place to store a lot of my stuff, like a mini fridge, microwave, computer and crockpot," said an inventor from Dinwiddie, Vir. "In order to securely and conveniently store my belongings, I came up with this."

He developed the patent-pending TRUCK SHELF to provide ample storage space for personal belongings. The device prevents the cabin from getting cluttered and cramped. It secures items in position during transit. The invention maximizes the usage of available space. It is suitable for use in any semi-truck sleeper. Furthermore, the accessory is ideal for storing a mini fridge, microwave, crockpot, computer and other essentials.

The original design was submitted to the Richmond office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 14-RIM-184, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
