

Inventor and InventHelp Client Develops Trash Bag for Automobiles (PND-4616)

Pittsburgh-based InventHelp is working to submit the CAR LITTER BAG to applicable companies for their consideration.

PITTSBURGH, PA ([PRWEB](#)) December 17, 2015 -- "I do not want my vehicle interior littered with wrappers, empty containers and other trash," said an inventor from Newtown, Pa. "This led me to develop a trash bag designed especially for use in automobiles."

He developed the patent-pending CAR LITTER BAG to provide a convenient place to dispose of trash in an automobile. The accessory prevents wrappers, containers and trash from littering the vehicle interior. It helps reduce the incidence of littering along the roadside. The unit keeps the interior neat, clean and tidy. It allows trash to be disposed of properly when convenient. Furthermore, the invention is usable in any vehicle.

The original design was submitted to the Philadelphia office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 14-PND-4616, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
