

SAE International Company ETI Announces the Release of its New Ultimate Pocket Guide for ISO Standards

Effective Training Inc., an SAE International company (ETI) and a global leader in standards training, has announced the release of its newest reference publication, the ISO Geometrical Product Specifications (GPS) Ultimate Pocket Guide.

WARRENDALE, Pa. ([PRWEB](#)) December 16, 2015 -- Effective Training Inc., an SAE International company (ETI) and a global leader in standards training, has announced the release of its newest reference publication, the [ISO Geometrical Product Specifications \(GPS\) Ultimate Pocket Guide](#).

The ISO GPS Ultimate Pocket Guide is the latest installment of ETI's popular series of Ultimate Pocket Guides and is the first guide dedicated to ISO GPS standards.

"It's the perfect on-the-job reference tool for any professional or student using or learning about ISO standards," said standards expert, author and ETI Founder Alex Krulikowski. "The Guide's compact size and easy-to-read format makes navigating numerous ISO standards simple and easy."

Advanced reviewers have hailed the new Guide as "the most useful guide ever published," and "a design engineer's absolute must-have go-to reference source."

The 141-page guide features topics including GPS basics, datum systems, geometrical tolerances, and non-rigid workpieces as well as a special section comparing the ASME ISO standards for professionals and/or businesses moving from ASME Standards or incorporating both Standards in their workplace.

The ISO GPS Ultimate Pocket Guide is affordably priced at \$39.95 and is available in print and eBook formats. Orders can be placed online through the ETI website at www.etinews.com. All product-related questions should be directed to the ETI sales team at sales@etinews.com or by calling 800-886-0909, or to the SAE customer service team. SAE International-member discounts do apply at time of purchase.

Effective Training, Inc. is the GD&T training arm of SAE International and a leader in the field of geometric dimensioning and tolerancing. Founded in 1985 by renowned GD&T expert and author Alex Krulikowski, ETI has since grown its operations providing unique training solutions, software, books, videos and other teaching materials to clients across the globe. SAE International is a global association committed to being the ultimate knowledge source for the engineering profession. By uniting over 137,000 engineers and technical experts, we drive knowledge and expertise across a broad spectrum of industries. We act on two priorities: encouraging a lifetime of learning for mobility engineering professionals and setting the standards for industry engineering. We strive for a better world through the work of our philanthropic SAE Foundation, including programs like A World in Motion® and the Collegiate Design Series™.
