

InventHelp Inventor Designs CHROME DOME (DLL-2917)

A leading inventor service company, InventHelp is submitting the CHROME DOME to appropriate companies for their review.

PITTSBURGH, PA ([PRWEB](#)) April 15, 2016 -- An inventor, from Euless, Texas, thought there needed to be a better way to cover and protect a car during bad storms, so she invented the CHROME DOME.

The CHROME DOME provides an effective way to protect a parked vehicle during a hailstorm. In doing so, it helps to prevent dents and other damage. As a result, it provides added peace of mind. The invention features a secure design that is easy to use and store so it is ideal for vehicle owners. Additionally, the CHROME DOME is producible in design variations.

The inventor described the invention design. "My design provides an easy and effective way to prevent dents from hail and other debris."

The original design was submitted to the Dallas office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-DLL-2917, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
