

## **InTouch GPS, A Fleet Tracking Provider, Builds Relationships While Presenting At The NAFA Institute & Expo 2016 And Other Events Across The U.S.**

*The InTouch GPS team traveled to Austin, TX, for the year's largest fleet management industry event*

Orlando, Florida ([PRWEB](#)) April 30, 2016 -- The InTouch GPS team traveled to Austin, Texas, for the NAFA Institute & Expo 2016, a 4-day event offering fleet managers tools for increasing networking power. The InTouch GPS team demonstrated their fleet tracking products and services as well as answered questions from fleet managers and business owners about best fleet tracking practices and other fleet related topics.

The NAFA Institute & Expo 2016 is the largest of its kind held each year, hosting thousands of new and veteran fleet professionals from around the country. In addition to NAFA, the InTouchGPS team has also attended other trade shows recently, including the United Servicers Association, The International Roofing Expo, American Rental Association, LCT, ACCA, National Asphalt, and more. InTouch GPS is thrilled with the networking and educational opportunities these trade shows and other events provide as they allow InTouch GPS to demonstrate how fleet tracking can help a business increase profits, reduce costs and enhance driver safety.

### **About InTouchGPS**

InTouchGPS evolved out of a technology company that was formed in 1978 to sell and develop electronic measurement and control devices. The Company's core Fleet Tracking Software was voted in 2015 as the number one fleet management device by Business News Daily and was #126 on the 2014 INC500 List.

InTouchGPS is privately held and based in Central Florida.

InTouchGPS tracks approximately 50,000 vehicles across North America.
