

New Summit Racing Brand Tools Now Available

Having the proper tools in the shop saves time and makes the job go smoother. Summit Racing has added new tools and shop equipment to help car builders do the job properly.

Tallmadge, OH ([PRWEB](#)) April 08, 2016 -- Having the proper tools in the shop saves time and makes the job go smoother. Summit Racing has added new tools and shop equipment to help car builders do the job properly:

[Summit Racing Professional 45 Degree Flaring Tool](#)

The Professional Flaring Tool makes short work of plumbing jobs from brake lines to transmission cooler and fuel lines. The tool forms 45 degree double, single, and bubble flares in steel, stainless steel, and soft metal tubing. The forming dies are mounted right on the turret so the user can make precision flares in record time, and the T-handle screw clamp secures the line in place. The Summit Racing Professional Flaring Tool can be used with 3/16, 1/4, 5/16, and 3/8 inch diameter lines.

[Summit Racing Piston Installation Tool Combos](#)

Our Piston Installation Tool Combos have everything needed to properly install a piston and rod set in an engine block:

- Manual piston ring filer with workbench clamp
- Tapered adjustable band ring compressor
- 32 ounce dead-blow polyurethane hammer ideally suited for pistons

The Combos are available for these bore sizes:

- 3.900 to 4.050 inch
- 4.000 to 4.090 inch
- 4.120 to 4.220 inch

[Summit Racing Engine Stand Combo](#)

Need to replace an old engine stand or don't have one yet? This Engine Stand Combo is ideal. It comes with a four-leg engine stand rated at 1,250 pounds; an engine lift plate that lets the user lift an engine by the intake manifold; and a reusable plastic engine cover to keep dirt and junk at bay.
