

C.L.I.P.S. Saves Children from Being Left Behind in Vehicles - Designed by InventHelp Client (HLW-1548)

A leading inventor service firm, InventHelp is submitting C.L.I.P.S. to applicable companies for their review and potential feedback.

PITTSBURGH, PA ([PRWEB](#)) April 16, 2016 -- Statistics about children being left behind in vehicles and suffering the ultimate consequence are cause for alarm, so an inventor from Fort Myers, Fla., has designed a solution to this problem. "I want to help save lives and give parents a sense of security in protecting their loved ones," he said.

The easy-to-use and versatile C.L.I.P.S. prevents a parent or guardian from forgetting a child in a vehicle. This helps avoid tragic fatalities, as well as promotes peace of mind. The invention also is usable for protecting the elderly and pets.

The original design was submitted to the Hollywood office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-HLW-1548, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
