

New at Summit Racing Equipment: Edelbrock Elite II Series Valve Covers and Air Cleaners

Summit Racing now carries Edelbrock Elite II Series valve covers and air cleaners. Based on the legendary Elite Series covers and cleaners, the Elite II parts are made from heavy-gauge die-cast aluminum and have the classic raised fin design with blacked-out fin recesses for added visual punch.

Tallmadge, OH ([PRWEB](#)) April 18, 2016 -- Summit Racing now carries [Edelbrock Elite II Series](#) valve covers and air cleaners. Based on the legendary Elite Series covers and cleaners, the Elite II parts are made from heavy-gauge die-cast aluminum and have the classic raised fin design with blacked-out fin recesses for added visual punch.

Air Cleaners

Designed to fit most common carburetor configurations, Edelbrock's Elite II Series air cleaners include a black anodized nut to complete the installation. The air cleaners feature Edelbrock's exclusive Pro-Flo air filter, which is washable/reusable for a long service life. Each filter has a handy Pro-Charge™ strip that indicates when the filter is ready for cleaning. Replacement filters are also available separately. Elite II Series Air Cleaners are available in 14 inch round and oval versions for dual and single-quad carburetors.

Valve Covers

Edelbrock Elite II Series valve covers are two inches taller than stock, allowing clearance for aftermarket valvetrains. These covers fit stock cylinder heads, and are compatible with Edelbrock's high performance aluminum cylinder heads. On most applications, the tall valve covers will clear most factory AC and alternator brackets. The valve covers include baffle mounting plates and breather grommets.

Edelbrock Elite II Series valve covers are available for small block Chevy, big block Chevy, small block Ford, Ford FE, and Mopar RB series big block.
