

All Crown Automotive Group Dealerships Earn Environment & Safety Platinum Elite Status from the Clean Auto Alliance

The prestigious and exclusive status is available to dealers who have met or exceeded high benchmarks set across six environmental and safety categories.

ST. PETERSBURG, FLORIDA ([PRWEB](#)) April 26, 2016 -- Crown Automotive Group is proud to announce that all 23 of its dealerships across three different states have achieved the prestigious distinction of Environment & Safety Platinum Elite.

This program was created by the Clean Auto Alliance, a non-profit organization that comprises automotive businesses, manufacturers, government agencies and dealerships and aims to address environmental, safety and transportation best practices. The Environment & Safety Platinum Elite distinction recognizes dealers that meet or exceed best practices spanning six environmental and safety categories, including DOT and Supplemental Programs, Emergency Response, Environmental, Hazard Communication, Loss Control and Safety Systems.

In order to be considered for this honor, the Clean Auto Alliance takes into consideration the efforts a dealership is making to stay in compliance with regulations from OSHA, the EPA and the DOT.

“We’re incredibly proud of this achievement, and of the hard work we’ve done to make sure all our dealerships reach the high standards set by this program,” said Tim Reid, Facilities Manager for Crown Automotive Group. “At Crown, we have a commitment to sustainable business practices, and we will continue to strive to exceed the benchmarks set by the Clean Auto Alliance across all our dealerships.”

Based in St. Petersburg, Florida, Crown Automotive Group also has dealerships in Ohio and Tennessee. All of them earned this status, which is granted for one year to facilities that meet all the requirements.
