

## **Now Shipping, New 2016 ROUSHcharged F-150 Truck**

*The new 2016 ROUSH F-150 SC, designed, engineered and tested by ROUSH Performance for on- and off-road power, durability and looks, is now shipping to ROUSH Performance dealerships across the United States.*

PLYMOUTH TOWNSHIP, MICH. ([PRWEB](#)) April 28, 2016 -- The new [2016 ROUSH F-150 SC](#), designed, engineered and tested by ROUSH Performance for on- and off-road power, durability and looks, is now shipping to ROUSH Performance dealerships across the United States.

The pre-title 2016 ROUSH [F-150 SC](#) comes with a 5.0L V8 engine from the Ford factory. Adding the fully integrated and calibrated ROUSH F-150 5.0L V8 Phase 1 Supercharger Kit, featuring the ROUSH R2300 TVS (Twin Vortices Series) supercharger, boosts power to an incredible 600 horsepower and 557 lb-ft of torque. The truck comes with a three-year, 36,000-mile limited warranty.

“The high-performance lifestyle is what drives our customers, and that’s equaled only by the passion ROUSH Performance’s people have for designing and engineering American-made vehicles like the 2016 ROUSH F-150 SC with raw power, looks and legacy that meets that need,” said Justin Schroeder, director of vehicle operations.

On-demand power and torque comes from the ROUSH TVS 2300 supercharger, which features twin four-lobe rotors twisted to 160 degrees. When applied to the 2016 ROUSH F-150 SC, it increases horsepower by 56 percent over stock (+215 hp) and torque by 44 percent (+170 lb-ft).

The 2016 ROUSH F-150 SC also sets a high standard when it comes to appearance. ROUSH exterior components include front grille and fender flares, both with clearance lighting; front bumper cover; square “R” hitch cover; and license plate and frame. The package also includes a full ROUSH graphics package, including hood, front windshield, side rocker and tailgate graphics. Additional options include a splash-style graphic.

A ROUSH/Fox 2.0 Performance Series Suspension System, featuring front coil-overs and rear shocks with boots, means the 2016 ROUSH F-150 SC is as tough and nimble off-road as it is on-road. ROUSH 20-inch wheels with beefy Mickey Thompson Baja ATZP3 305/55 tires give the truck a stance that’s second to none. A ROUSH Performance Side-Exit Exhaust System makes the 2016 ROUSH F-150 SC rumble no matter where it’s driven.

The 2016 ROUSH F-150 SC is now available for purchase at [ROUSH Performance dealerships](#) in federal emissions states not governed by California Air Resources Board (CARB) regulations.

For more information about the 2016 ROUSH F-150 SC, contact ROUSH Performance at 800.597.6874, visit its [website](#), or visit your local ROUSH dealership.
