

Range Extenders for Electric Vehicles the Subject of New SAE International Symposium – U.S. DOE Deputy Assistant Secretary for Transportation Slated as Keynote Speaker

SAE International announces a new symposium on expanding the range of electric vehicles (EV).

WARRENDALE, Pa. ([PRWEB](#)) May 09, 2016 -- [SAE International](#) announces a new symposium on expanding the range of electric vehicles (EV).

["SAE 2016 Range Extenders for Electric Vehicles Symposium"](#) will be held Nov. 2-3 at the Crowne Plaza Knoxville, in Knoxville, Tennessee, USA.

Engineers and researchers attending the SAE 2016 Range Extenders for Electric Vehicles Symposium will learn about the role of engines and novel prime movers on extending the range of electric vehicles. This unique event will focus on powertrain and fuel opportunities and challenges, policy and regulation driving designs, infrastructure and the advances in range extender technology.

Keynote speaker for the event will be:

- Reuben Sarkar, Deputy Assistant Secretary for Transportation, U.S. Department of Energy

Organizers for the symposium include:

- Hugh Blaxill, General Manager, MAHLE Powertrain LLC
- Scott Curran, Research and Development, Fuels Engines and Emissions Research Center, Oak Ridge National Laboratory
- Robert Wagner, Director of the Fuels Engines and Emissions Research Center, Oak Ridge National Laboratory

SAE International is a global association committed to being the ultimate knowledge source for the engineering profession. By uniting over 128,000 engineers and technical experts, we drive knowledge and expertise across a broad spectrum of industries. We act on two priorities: encouraging a lifetime of learning for mobility engineering professionals and setting the standards for industry engineering. We strive for a better world through the work of our charitable arm, the SAE Foundation, which helps fund programs like A World in Motion® and the Collegiate Design Series™.
