

## **Liberty Coach Sets Blistering Sales Pace for 2016**

*Four months into 2016, it's business as usual for Liberty Coach – which, as usual, finds the perennial Prevost conversion leader miles ahead of the field.*

North Chicago, IL and Stuart Florida ([PRWEB](#)) May 23, 2016 -- Four months into 2016, it's business as usual for Liberty Coach – which, as usual, finds the perennial [Prevost conversion leader](#) miles ahead of the field.

The numbers say it all. After topping 2015's record-setting 1st quarter with 31 sales – an increase of over 20% – the Liberty team shifted into serious overdrive, chalking up another 30 sales by May 17th. For the record, that's 50% more than last year's total 2nd quarter sales. Perhaps even more impressive, the company's 2017 Elegant Lady models are selling faster than they can be listed. In fact, only one 2017 (Elegant Lady No. 806) even made it to the Liberty Coach website, and then sold within days of being listed.

One reason the 2017 coaches are in such high demand is the [revolutionary new energy system](#), says Liberty managing partner Frank Konigseder Jr. "It includes a new 58-volt Lithium Ion Battery pack that delivers over three times the energy of any RV battery system," he points out. "And the new generator is the first Tier 4-certified unit ever in a Prevost conversion. Together, they comprise a system that is not just the first to meet the U.S. EPA's Tier 4 emissions standards, but offers the only real answer to ever-increasing anti-idling laws."

Of course, there's more to the story than that. All but one of the remaining 2016 Elegant Lady models have sold as well. And fully half of Liberty's total YTD sales have been pre-owned coaches from as far back as 2007. Which demonstrates once again that buyers at every point in the Prevost spectrum are bringing their business to Liberty first and last.

In other words, business as usual.

A sampling of currently available inventory listed at [www.LibertyCoach.com](http://www.LibertyCoach.com)
