

Corra Group to Attend the Great American Trucking Show, in Dallas Texas

Corra Group is planning on exhibiting its DOT related background checking services at the GAT, in Dallas, Texas, where for than fifty thousand people will be attending.

El Segundo, CA ([PRWEB](#)) June 01, 2016 -- Corra Group is planning to attend the [Great American Trucking Show](#), in Dallas Texas. The GAT runs from August 25th through August 27th, with more than fifty thousand truckers and trucking and transportation related companies attending.

“We are planning to have an exhibitor’s table where we can offer the trucking and transportation industry [Motor Vehicle Driving Records](#) and other Department of Transportation services,” said Corra Group Co-Founder, Gordon Basichis. “Since Corra Group offers to truckers everything from MVRs to DOT compliant employment verifications, criminal background checks, and drug testing and random management services, we see the GAT as a great branding opportunity.

“Our trucking and transportation clients are based everywhere in the nation,” said Basichis. “And since the Great American Trucking Show is probably the greatest annual event in the country, it’s a great way to put our faces with our names.”

Basichis pointed out that the GAT offers all kinds of trucking related exhibits and has training sessions, free healthcare screenings, and a number of music concerts. He noted he sees the GAT as a mix of business and a lot of fun.

“The GAT is in Dallas, Texas,” said Basichis. As a former Texan, I’ve been to Dallas many times and look forward to see the changes that have taken place since I was last in the city. It is also the perfect setting for the Great American Trucking Show, as trucking is part of our national folklore.

“As the co-owner of a company that has been providing DOT compliant trucking [background checks to transportation companies](#) for over eleven years now, I’ve seen more than a few changes in the industry,” said Basichis. “But one thing is for certain. Many entrepreneurs can start out modestly with one truck and a couple of drivers, and before long they have a fleet of trucks and dozens of drivers. It is one of the places where the American Dream still lives and breathes.”

Basichis noted that trucking and transportation companies need to conduct such background checks as driving records and drug tests on a regular basis in order to stay compliant with the DOT. He suggested it is often tough to organize all the compliance mandates, especially for a startup business.

“Corra Group is there to help its trucking clients get their act together and meet compliance standards for the DOT,” said Basichis. “We understand this business and are happy to be part of it.

BACKGROUND: Corra operates as Corra Group and specializes in pre-employment and corporate research and investigation. It is one of the few companies that will answer the phone. You can review the website at www.corragroup.com.
