

## **Phil Armstrong Rejoins HNTB as Central Division Business Development Officer**

*Armstrong to help expand client service across 11 central and western states*

DALLAS ([PRWEB](#)) May 31, 2016 -- Phil Armstrong, PE, has rejoined HNTB Corporation as Central Division business development officer and senior vice president. He returns to HNTB's Dallas office, where he previously spent 13 years.

Armstrong has more than 37 years of industry experience, having managed or designed more than \$1 billion in major highway improvements for departments of transportation and toll authorities over the course of his career. He also brings a comprehensive understanding of the toll industry and more than a decade of public-private partnership experience.

“We all feel very fortunate that Phil has rejoined HNTB. He will be a key leader in our continued focus on diversification of our services in Texas and throughout the firm,” said Tom Ellis, PE, HNTB Central Division president. “As HNTB continues to design, manage and provide financial assistance for infrastructure projects throughout the Central Division, Phil’s expertise will serve as a key component of our clients’ success.”

Armstrong’s focus includes expanding HNTB’s client service in multiple markets across central and western states. He has supported multiple projects in HNTB’s Central Division during his prior employment, including the design-build IH-35E Managed Lanes and SH 183 Projects in the Dallas area.

Most recently, Armstrong served as a senior vice president and senior program manager for another consulting firm. Armstrong earned a bachelor’s degree in civil engineering from the University of Kansas.

### About HNTB

Named 2015 Design Firm of the Year by ENR Texas & Louisiana, HNTB Corporation is an employee-owned infrastructure solutions firm serving public and private owners and construction contractors. With more than a century of service in the United States and Texas, HNTB continues to grow in size and service offerings to clients from nine office locations, currently employing approximately 400 full-time professionals in the state. HNTB understands the life cycle of infrastructure and addresses clients’ most complex technical, financial and operational challenges. Professionals nationwide deliver a full range of infrastructure-related services, including award-winning planning, design, program management and construction management.
