

Bretz RV & Marine Hosts Live Airstream Expo At Caras Park June 4th

Starting at 9a.m. on Saturday June 4th, Bretz RV & Marine will display brand new Airstream RVs during their second annual Airstream Expo at Caras Park in Missoula, MT.

Missoula, Montana ([PRWEB](#)) June 01, 2016 -- Bretz RV & Marine invites the Missoula community to experience the luxury camping lifestyle of Airstream, an iconic brand of luxury travel trailers in the RV industry. The free event from 9am to 6pm will feature a variety of food vendors, a booth from Airstream restoration company Blue Moon Caravans, and live music from 3pm to 6pm by local Missoula band Letter B. Local vendors include Big Dipper Ice Cream, Big Thai Country, Kayle, El Cazador, Hunter Bay Coffee, Isling Chow, and more!

This second annual Expo is designed to provide the public with more information regarding the history, unique design, and ongoing development of the classic Airstream trailer and its presence within American culture. Although the name has been around since the 1930's, Airstream continues to uphold its tradition of producing high quality trailers that still dominate the RV industry today. Visitors will have a firsthand opportunity to step inside a Flying Cloud, International Signature, 16 Sport, or Interstate conversion van, and catch a rare glimpse of an Airstream trailer up close.

This event is highly anticipated by hundreds throughout the Missoula community, and also by the employees of Bretz RV & Marine. Richie Winters, an Airstream specialist at the Missoula dealership, explains what it means to be apart of the popular brand.

“What separates Airstream from the rest of the RVing world is that they have the highest resale value of any RV in the world. These trailers don't even have a lifespan; the first one ever built may very well still be on the road today. The trailers tow better, the owner saves 20% on fuel economy due to its aerodynamic design, it offers compact comfort, and it has the highest quality build imaginable. To be apart of the brand means to go a step above. Airstream products are truly timeless.”

In 1931, Airstream began with Wally Byam's dream to build a travel trailer that would move like a stream of air, be light enough to be towed by a car, and create first-class accommodations anywhere. Every inch of an Airstream has a function; it is the most thoroughly tested brand in the RV industry. Its engineering is the culmination of over 80 years of experience, plus millions of miles tested on roads throughout the world. Today, the earliest Airstreams still travel on roads and are sturdy and modern as ever. Not only do they commit to excellence and quality design, they are built to last as a lifetime investment.

As Montana's only authorized Airstream dealer for over 15 years, Bretz RV & Marine offers the best service for selling, handling and rebuilding these trailers. With some of the best RV technology, the best trained technicians and specialists who handle only Airstreams, they have all the resources for providing a quality experience for your Airstream adventures. Don't miss this exclusive opportunity on June 4th to visit the Airstream Expo at Caras Park in Missoula from 9am-6pm!
