

## ACDT Results of European Meetings

*Result of European Meetings and expectations of marketplace in Europe*

([PRWEB](#)) February 14, 2002 -- 1/17/2002 10:01:00 AM

PALMBEACH GARDENS, Fla., Jan. 17

Through a previously announced exclusive agreement, Accident Prevention Plus, Inc. (ACDT) has been involved in discussions with the European Markets and anticipates up to 4 million Smartcards to be used in Europe annually. An initial order of 400,000 Smartcards is expected for the month of February from two countries, which have expressed their interest in implementing the system nationwide.

At \$15 per card, Accident Prevention Plus estimates the European Market will provide the Company revenues up to \$60 million annually on their Smartcard product alone.

Based on recently issued mandates in Europe and under the assumption that the Smartcard continues to operate successfully, a five-year commitment is expected from countries involved.

In addition to the processing/analysis chain that is made of the detailed analysis and the history analysis, the AP+ Series provides the capabilities to run a quick analysis of the data recorded on the smart card allocated to each individual driver. Also, with the use of the smart card, you may set limitations for your vehicles and drivers.

Statements contained in this release that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, and Section 21E of the Securities Exchange Act of 1934, and are made subject to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Investors are cautioned that such forward-looking statements including, but not limited to, statements about expected future events and/or financial results, invoke risk and uncertainties and that actual future events and/or the Company's actual results may differ materially from such forward-looking statements. Such risks and uncertainties include, but are not limited to attract and retain key personnel, its ability to finance its plans for growth, general economic conditions and other factors discussed in such forward-looking statements and/or the Company's periodic filings with the Securities and Exchange Commission.
