

## **InventHelp Inventor Designs Vehicle Safety System for Children (HTM-1070)**

*InventHelp, a Pittsburgh-based inventor service company, is submitting the ANGEL WHISPER to companies for their review.*

PITTSBURGH, PA ([PRWEB](#)) December 12, 2015 -- An inventor, from Las Vegas, N.M., thought there needed to be a way to prevent young children from being left behind in hot cars, so he invented the ANGEL WHISPER.

The ANGEL WHISPER provides an effective way to warn parents if children are left behind in a parked vehicle. In doing so, it could help to prevent heat-related injuries. As a result, it enhances safety and it provides added peace of mind. The invention features a safe design that is convenient and easy to use so it is ideal for parents with young children. Additionally, the ANGEL WHISPER is producible in design variations.

The inventor described the invention design. “My design provides a safe and effective way to alert parents if children are accidentally left behind in a parked car.”

The original design was submitted to the National Sales Office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 14-HTM-1070, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
