Carport Art:

Peruse through a collection of dynamic, unprecedented, Canadian-abstract paintings by Visual Artist Sarah Bradbury...

Defined by Sarah as 'free-style', Sarah's oil paintings are explorations in shapes, abstraction, colour, texture and oil-related mediums. Her subject matter is based on nature and classic modern design including interior design, architecture, sculpture and crafts. Jazz music, ceramics, Painters Eleven, Les Automatistes, the Abstract Expressionists, York Wilson, Barbara Hepworth and John Wells are listed as being some of Sarah's artistic influences.

Sarah Bradbury is a Toronto artist who graduated from the Ontario College of Art and Design in 1994 with an AOCA diploma in Interdisciplinary Studies.

In 1997, Sarah participated in her first major show along with notable artists, Barbara Bickle, George Minard Sanders and Kay Murray-Weber. This group show entitled 'Post-Modern Myths' at the John B. Aird Gallery in Toronto showcased her earlier illustrative work. Soon after this experience, The Next City, a Toronto magazine featured an article on these works in the Fall 1997, Vol.3 issue.

Currently, Sarah is working on a new series of paintings inspired by classic modern design which she is planning to show in Toronto next summer 2003. Details will be posted on her web site: www.carportartanddesign.com. Also, look for new paintings to be added to her web site in the near future.

carportdesign:

Working as a digital media designer for six and a half years, Sarah has fused her art, design and architectural interests with her digital graphic design style. Examples of this can be seen in the print section of carportdesign and in Anomalous, Sarah's art-design-architecture web site (which is currently being remodeled).

After graduating from Sheridan College's post-graduate New Media Design program in 1996, Sarah worked at IBM Canada's Media Design Studio for four years in the areas of graphical user interface (gui), print and web design.

Sarah enjoys working on her personal print and web projects. She also works freelance as a web and gui designer.
