([PRWEB](#)) May 15, 2002 -- For over 20 years, PLUSS Corporation and PTM (Part-time Manager) have been the leaders in Heavy Duty Industry Software development. Focusing on the needs of their customers, PLUSS Corporation continues to provide complete business management services for their customers.

Ron joins PLUSS Corporation as a financial consultant in the Business Services Division. His professional background includes financial analysis, counseling and business planning. Ron's expertise covers such areas as increasing profits, time-management, and business planning and growth.

PLUSS Corporation is not just a software distributor, but a developer that hears the needs of the customer -- asks for their involvement, and works one-on-one to make the customers transition into the most powerful Management tool on the market a smooth one.

ABOUT PLUSS CORPORATION AND PTM SOFTWARE

Pluss Corporation is a privately held corporation, incorporated in the state of Montana. It was initially founded as a partner to PTM Inc., as a move to improve customer service for Part-Time Manager program users. In light of Pluss Corporation's immediate success with Business Services and the development of new Sales and Marketing ideas, PTM Inc., made the decision to focus strictly on software development and total computing solutions. With this decision, PTM Inc., opted to sell the entire products and services side of their company to Pluss Corporation. PTM Inc., as a separate entity, can now concentrate solely on developing and designing software products for current and future generations of Part-Time Manager program users!
