

CarCrazy relocates operations to 720 Montgomery Ave, Narberth, Pa.

After 9 1/2 years at 723 Montgomery Avenue location, CarCrazy moves "across the street" in order to serve our customers more efficiently.

([PRWEB](#)) August 13, 2002 -- CarCrazy specializes in the retail sales of better quality automotive detailing products, automotive accessories, books, artwork, specialty gifts, as well as limited edition automotive miniatures.

With the addition of Model Railroading and the substantial growth of our mail order/internet business, we found it imperative to seek a new location. Fortunately, there was a property available directly across the street from the original retail location which we had occupied for 9 1/2 years.

The new location will allow us to segregate our mail order and wholesale operations from our retail store, yet keep us "together" for more efficiency, says Richard Tabas, Founder of the company. It will also facilitate our growing selections of model railroading items. The move has more than doubled our available space. The [carcrazy.net](#) website has been a great addition to our business, we have been on the web since early 1995 and have enjoyed both watching and being a part of the internet's growth, now we are able to sell our goods worldwide. We have developed an excellent following overseas, and have learned much from this new diversity which we have applied to our product lines.

The building is located at 720 Montgomery Avenue in Narberth, Pa. Narberth is a suburb of Philadelphia, Pa and is located along the "Main Line" which is considered the first established "suburb" in the USA.
