

## **Reduce Dangerous Driving Distractions With DRIVE SMART - Designed by InventHelp Client (HTM-156)**

*Pennsylvania-based InventHelp is submitting this idea, DRIVE SMART, to appropriate companies for their consideration.*

PITTSBURGH, PA ([PRWEB](#)) September 17, 2016 -- An inventor from Gautier, Miss., spends a lot of time traveling the Interstate, and he's observed other drivers swerving and driving erratically due to dialing or texting on cell phones. "In order to prevent this danger, I came up with this idea," he said.

The patent-pending DRIVE SMART enhances driving safety by reducing distractions. This avoids accidents, which may prevent fatalities. Easy to use and reliable, it can be produced in an alternative version.

The original design was submitted to the Houston office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-HTM-156, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
