([PRWEB](#)) December 23, 2002 -- Press Release

Panse Group of Companies received ISO/TS 16949:1999 Certification from TUV GmbH

One of the few Indian Companies to achieve QS 9000 & TS 16949

Pune 20: Pune based Panse Group of Companies comprising of Panse Autocomps Pvt. Ltd & Autocomp Corporation, engaged in manufacturing of Automotive Sheet Metal Pressings , Aggregates and Tubular Assemblies for last 17 years . The company has acquired for all its plants the highest Quality Certification namely QS 9000:1998 & TS 16949 : 1999 certification from TUV GmbH. The company got ISO 9001:2000 before QS 9000: 1998 & TS 16949 : 1999.

The ISO 9001:2000 adopts the process approach while developing, implementing & improving the effectiveness of Quality Management System to enhance Customer Satisfaction. The QS 9000, which is the proprietary standard of the Big Three -Ford, Daimler Chrysler and General Motors, encompasses the Business Planning process to monitor the Short Terms and Long Terms targets. Customer Satisfaction is the focal point. Proven Management Tools such as Advance Product Quality Plan, Failure Mode Effect Analysis help to build Quality in Product and Process to meet Customer requirement. Continuous improvement, Facility and Tooling Management, Measuring System Analysis and Statistical Techniques help for better process control.

This Group has further achieved TS 16949 certification, which is a rare fate. This encompasses crucial aspects such as Technical up- gradation and improvement of Product and Process, which ensures compliance to Government, Safety and Environmental Regulations & Employee motivation, empowerment and satisfaction. Implementations of Laboratory procedures, First In First Out system for Inventory Control, DWSPA as per Customer Requirement are few of the salient features of TS 16949. All this techniques help to add value to our demanding Customers.

"Two decades of prolific growth has gone by since the seed of Panse Group of Companies was sown in 1983. Today, having won credibility & confidence from our customers, as a quality conscious manufacturer of automobile assemblies in the domestic market, the Group aspires to use this perch to wing its way to the beckoning global market." says Mr. Rajeev Panse, CEO of Panse Group of Companies.Â

Further more he added that Â Any Quality System is of real use only if it is practiced by each and every team

member / constituent. That is why this company has taken good efforts in developing Human Capital. Training is considered a strategic requirement for better product quality and to foster teamwork, while achieving individual excellence. Obviously there is still a very long way to go and true kaizen- Continuous improvement should certainly help the company to be in the forefront while catering to Domestic and Overseas Market. Â □ Panse Autocomps Pvt. Ltd has bagged 'Excellent ' quality rating consistently from TELCO and other Companies like Bajaj Auto Ltd ,Mahindra & Mahindra - Tractors and Tata Toyo Radiators Ltd.

The products include Skin Panels and Seat Panels for Cars and Utility Vehicles, chassis and Suspension Assemblies for Commercial Vehicles and Tubular chassis for mopeds and motorcycles.

Panse Group of Companies has wide ranging facilities for Sheet Metal Pressings upto 600 ton, State of art fabrication and Assembly facility and Conveyorised Automotive Painting and well equipped Tool Room.
