

KC GRAVITY® PRO6 Series LED Lights and Light Bars Shipping Now

KC's new Pro6 LED Single Lights and Pro6 LED Light bars are engineered to take lighting visibility to new heights while featuring modular beam patterns, radius to straight adjustment and expandable width linking the Pro6 Series LED lights create the unlimited feature set for Jeeps, Trucks and UTVs.

Williams, Arizona ([PRWEB](#)) September 15, 2016 -- KC HiLiTES Inc. (Williams, AZ), is pleased to announce the availability of the [Pro6 LED Light Bars](#) and [Pro6 LED Single Lights](#). The Pro6 LED Lights feature industry leading light output at a fraction of the wattage, modular optics and radius to straight adjustment. Powered by Gravity LED Optical Inserts, the Pro6 represents the ultimate combination of light output, efficiency and personalization made for every season and every reason. The Pro6 Series of lights are available in limited quantities for purchase starting September 15th, 2016 at a local authorized KC Dealer.

PRO6 LED LIGHT BAR KEY FEATURES:

- * Combo beam pattern with Gravity® LED G6 Driving and Wide-40 beams
- * Infinity Ring™ mounting system (patent application #14/704,736)
- * Adjustable setting for straight, radius and hybrid bar
- * Change and Clock optical inserts to customize beam
- * Turn-key vehicle specific mounting

PRO6 LED SINGLE LIGHT KEY FEATURES:

- * Available in Gravity® LED G6 Spot, Driving (SAE/ECE) and Wide-40 beams
- * Infinity Ring™ with Secure and adjustable Universal ball-mounting
- * Change and Clock optical inserts to customize beam

AVAILABLE PRODUCTS:

Pro6 LED Light Bar

- #91306: 32", 5-light Combo Beam for Universal Application
- #91308: 50", 8-light Combo Beam for Universal Application
- #91309: 32", 5-light Combo Beam for Polaris RZR includes light mounts
- #91310: 39", 6-light Combo Beam for Yamaha YXZ1000R includes light mounts
- #91311: 50", 8-light Combo Beam for Ford F150/Raptor includes light mounts
- #91312: 50", 8-light Combo Beam for Jeep TJ includes light mounts
- #91313: 50", 8-light Combo Beam for Jeep JK/JKU includes light mounts
- #91316: 39", 6-light Combo Beam for CAN-AM Maverick & Commander includes light mounts

Pro6 LED Single Lights

- #91300: Pro6 Single, Spot beam, single light
- #91301: Pro6 Single, Spot beam, pair pack system
- #91302: Pro6 Single, Driving beam, single light (SAE, ECE Street Legal)
- #91303: Pro6 Single, Driving beam, pair pack system (SAE, ECE Street Legal)
- #91304: Pro6 Single, Wide-40 beam, single light
- #91305: Pro6 Single, Wide-40 beam, pair pack system

DISTRUPTIVE ENGINEERING FROM THE START

The KC Gravity Pro6 was developed with three philosophies in mind:

1. Performance: optical distance, clarity and usable beam shape using GRD LED technology
2. Best-of-breed features: modularity, scalability and versatility
3. Drive customer value by creating a product that adjusts to every season and every reason

KC GRAVITY LEDS: POWERFUL & EFFICIENT

At the center of our Gravity optical inserts is KC's Gravity Reflective Diode (GRD) technology which aims LEDs into our optically engineered reflectors. Optical inserts have allowed KC to separate its LED light source from traditional light housings creating much more flexibility and opportunity across the LED product line. Gravity inserts are available in three beam patterns including Spot, Driving (SAE/ECE) and an all-new Wide-40 pattern. The Wide-40 beam is wider and taller than driving increases cornering visibility without compromising distance.

INFINITY RING™ SYSTEM: UNLIMITED ADJUSTMENT

KC's Infinity Ring system is patent-pending and serves as the backbone for the Pro6 LED Light Bar. This adjustable system links multiple Gravity LED G6 Optical inserts together. The Pro6 LED light bar comes tuned with our combo beam setup but customers will have the ability to change any of the optical inserts as well as rotating them to further customize their beams. Additionally, between each Infinity Ring is a straight or radius setting allowing a simple conversion process between straight, radius, or partial radius configurations.

ABOUT KC HiLiTES

As the leader in LED, HID and Halogen performance lighting the KC name is synonymous with quality, innovation and the highest levels of customer service. For 46 years, KC HiLiTES has been producing highest quality performance lighting in the industry. It is this absolute commitment to quality that allows KC HiLiTES to back every one of our products with our industry-leading 23-year warranty.
