

Tracey Trexel Joins HNTB as Toll Technology Consultant

Trexel to assist clients with revenue collection systems, with focus on encompassing multiple transportation modes.

San Diego, CA ([PRWEB](#)) September 12, 2016 -- Tracey Trexel joined HNTB Corporation's national toll technology consulting practice as toll technology consultant. She is based in the firm's San Diego office.

With expertise in tolling and transit revenue collection technology and operations, Trexel has more than 15 years of experience in software and systems engineering, product management and business development, including software development, product development and human factors engineering.

“Tracey’s expertise in both tolling and transit further expands HNTB’s capabilities in the wider spectrum of revenue collection technology support for our transportation clients,” said Walter Fagerlund, PE, HNTB director – national toll technology consulting practice and associate vice president. “With an increasing convergence of transportation modes, Tracey’s expertise will ultimately help lead to solutions that provide convenience and efficiencies for agencies as well as their customers who demand seamless integration.”

Prior to joining HNTB, Trexel served as worldwide product manager of toll back office systems for a transportation revenue management systems firm.

She holds a Master of Business Administration and a Bachelor of Science, computer science from San Diego State University. She also is a graduate of the executive development program from International Bridge, Tunnel and Turnpike Association’s Leadership Academy.

At HNTB, Trexel serves Georgia’s State Road and Tollway Authority and the Georgia Regional Transportation Authority on their customer service center conversion, which involved combining back office services for both tolling and transit operations. She also is helping the Utah Department of Transportation with planning of its next-generation managed lanes back office system and operations.

HNTB’s national toll technology consulting practice provides expert advisory support to transportation clients as an owner’s representative with planning, procurement, implementation and operations oversight of tolling and transit projects. Working closely with a national network of local HNTB offices, recent major projects have included the procurement and/or implementation oversight of a wide variety of tolling back offices in states such as Florida, California, New York, New Jersey and Illinois, as well as next generation roadside toll systems for agencies in Florida, California, North Carolina, New Hampshire, New York, Pennsylvania, Delaware and others.

About HNTB

HNTB Corporation is an employee-owned infrastructure firm serving public and private owners and contractors. With more than a century of service in the United States, HNTB understands the life cycle of infrastructure and addresses clients’ most complex technical, financial and operational challenges.
