

Indianapolis man writes autograph address book for race car drivers.

Indianapolis man writes autograph address book for race car drivers.

([PRWEB](#)) June 20, 2003 -- Indianapolis man writes autograph address book for race car drivers.

1st Books in Bloomington, Indiana recently published Racing Stars Autographs by Mail. It was compiled and written by Brian Ludlow from Indianapolis, Indiana. There are many celebrity address books on the market today but this one is unique. It is written by a racing fan for racing fans. The book is specific to race car drivers from Nascar, Busch, Truck Series, Indy Racing League, and Drag Racing. It also contains the addresses for crew chiefs, owners, past drivers, and includes sections on how to receive autographs by mail. It includes statistics such as Indianapolis 500, Daytona 500, and Brickyard 400 winners, past champions, and rookies of the year.

Brian is an avid racing fan and grew tired of long searches for autographs, standing in long lines only to not make it to the front and be turned away, or paying high prices for autographs. There was not a book available specific to racing on the market. The drivers are usually included in a celebrity address book but are not updated or are incomplete. Most of the focus in these books is for movie and television personalities. Brian decided it was time for race car drivers to have their own celebrity address book. This book is available for about half the cost of any current celebrity address book that may or may not have the address of the driver that you are looking for. Much research and time was put in to finding the most current addresses. Brian has had much success using these address in obtaining his own autographs. The book is a must have for any racing fan who has ever wanted an autograph from their favorite driver.
