

## **Auto Truck Group has Strong Sales of Meyer Snowplows**

*Auto Truck Group, one of America's leading builders of work trucks, has strong sales of Meyer's EZ-Mount Xpress snowplow in spite of a light snow season to date.*

Bensenville, IL ([PRWEB](#)) January 5, 2009 -- In June 2008 Auto Truck Group brought in a large inventory of the EZ-Mount Xpress, Meyer's premium snowplow, to all five of it's locations. Their goal was simple, have more 'yellow' plows out on the road. "We've been really pleased with the sale of the Meyer EZ-Mount Xpress snowplows," said Denny Jones vice president of sales and marketing for Auto Truck Group.

"Everyone buying the [EZ-Mount Xpress](#) is amazed with the amount of features for the price," said Pete Dondlinger Sales Manager for Auto Truck Group's headquarters in Bensenville, IL. The Meyer EZ-Mount Xpress is the easiest snowplow to mount or dismount to a work truck. Easily connect or disconnect a single power source and push a button and you have successfully mounted or dismounted the snowplow.

The [EZ-Mount Xpress](#) snowplow is able to throw more snow, farther and faster. This snowplow has been designed with an aggressive attack angle and curvature, similar to a municipal-style snowplow, giving maximum snow removal capacity and the most efficient snow rolling action available.

Auto Truck Group, headquartered in Bensenville, IL, has been Making Trucks into Tools since 1918. They offer extensive experience, knowledge, excellent service, competitive prices, and tremendous value to their customers. Auto Truck Group's five locations provide convenient access for up-fitting in the work truck industry. For more information please visit, [www.autotruck.com](http://www.autotruck.com).
