

Brady Distributing and Play Time Toys Offer a Unique Marketing Option for Auto Dealer Showrooms

Brady Distributing, Inc. and Play Time Toys have partnered to offer a unique arcade gaming solution for auto dealerships striving to compete for consumers' dollars and loyalty. With the recent trend toward marketing driven upgrades for showrooms and service department waiting rooms, these leaders in the arcade gaming industry are offering unique solutions, including toy crane machines.

Charlotte, North Carolina ([PRWEB](#)) January 03, 2013 -- [Brady Distributing, Inc.](#) and [Play Time Toys](#) have partnered to offer a unique arcade gaming solution for auto dealerships striving to compete for consumers' dollars and loyalty.

Auto dealership showrooms and service department waiting areas have been undergoing dramatic renovations over the last couple of years. Some dealership showrooms now offer gourmet coffee and complimentary Wi-Fi to business people, large screen televisions for the sports enthusiast all while lounging in designer furnishings. The thought is to change the image from a place you go every few years when you are buying a car, to a destination you are comfortable visiting several times a year for service appointments or to check out a new model. To meet this most recent trend, Brady Distributing and Play Time Toys are launching products designed to attract and appeal to waiting families and children.

“Plush toy cranes and other arcade gaming machines provide a fun factor that no other dealership upgrade can offer,” states Jon Brady, Vice President of Brady Distributing, Inc., “These products give children something entertaining to do while their parents are working with sales or service.” Brady goes on to say that many dealerships offer play tokens to potential buyers waiting on financing or as added value for services such as oil changes. “Arcade games appeal to all ages and demographics. You can’t go wrong offering lighthearted fun to your customers.”

To launch this new family friendly promotion, dealerships are being offered special incentives such as free plush toys for each Plush Toy Crane Machine purchased. Brady and Play Time Toys have designed this turn-key marketing solution specifically to meet the needs of auto dealerships.
