

I BOB Ensures Door Security for Buses, RVs and Trucks - Designed by InventHelp Client (CBA-2229)

Pittsburgh-based InventHelp is attempting to submit this invention, the I Bob, to companies for their consideration.

Pittsburgh, PA ([PRWEB](#)) January 04, 2014 -- "As a bus and truck driver, I need to make sure that all doors are secured for safety and legal purposes," said an inventor from west Columbia, S.C., "so I designed an easy and reliable way to ensure this."

The easy-to-use I BOB provides an easy, reliable way to know if doors on a bus, RV or truck are open or tampered with. As a result, it ensures security and safety, as well as allows for compliance with driving/road laws. Producible in different sizes, it's ideal for bus companies, OTR companies, delivery services, movers, etc.

The original design was submitted to the [Columbia office of InventHelp](#). It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 12-CBA-2229, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
